

## Infrared Ray Weapons maybe in every Display

not yet proven  
since point 3  
unclear,  
the other points  
when they attack  
me as a group  
either imply that  
the attacking  
people is stupid  
or thinks they  
do the right thing

Physiker: 100 W netztel reicht nicht  
100W + kondensator würde reichen

**Inventor: ????**

It seems that the NSA/CIA Terrorists Urs Blum, Astrid Blum and Hansjürg Pfisterer Aarau have Activated some sort of infrared weapon on my display, that causes pain in my eyes and makes my face skin red. After I found out the looped streams with false evidence 1. It's in the bodylotion, (sealed appartement, same bottle as before this and that (tested the factum an 3 small pills) yes, face that was not in contact with the cream got red) 3. Claudine B. would have put acid in my bodylotion (???). 4. (closed roller blinds and closed curtains) they added multiple cocaine consuming death circles into my m98, m99 to make me believe that, maybe paid by acer to obfuscate the infrared ray weapon they put in kids toys. My death in the garden of those who did this to me would be an acceptable price to prevent people from putting cyber-weapons into kids toys. Point 3 I'm not 100%, with co12 & t37 would be possible I guess, since I seal my apartment, even when I'm in my apartment.

## Loop Recorder Part 3

**t32**

<https://0x8.ch/HackersCardgame12>

**Inventor: xxxxx**

Like t10 or t23 a game engine (here Blender 3D) is also some sort of t7 Card, but it's not just a loop it for example event-triggers (t14) or state machines (co1), for example if I leak about this sort of things a16 card is beeing activated against me. **They often use an event in real live to create this story, you would focus on the initial scene and the person instead of technology.** And possibly with AI / Deep Learning (a11 card) prerendered AI or genetic algorithm that learns. The card is in neutral gray, because you could use such technology also for good things but in my case they abused it more like **weapon or "white" torture** against me, that wants to kill. Book Erebos. The algorithm would maybe also try to **isolate whistleblowers and whitehats** that could be as simple like an inverted F=TVSr Card (Alex Wissner Gross) formula, not keeping all people connected but isolate some or even all.

moved to c1

## Spinal Cord Implant

**RISK SCORE: 10**

<https://0x8.ch/HackersCardgame12>

**Inventor: xxxxx**

Originally an implant in the spinal cord (medulla spinalis) that could force an **>>> orgasm <<<** (they talk explicitly about "sexual things" to make the people focus on that (m107 Card) and to **obfuscate** that the **whole body can be remote controlled by such technology**), patented 40 years later 1999 under US6169924. Today maybe enchanted with more than just that "wire" (US Army researches in this field) Output; the victim can be "used" as a robot / soldier / killer or sex slave with a 3D model of the victim in a 3D environment (like games) if all people would have such thing they could create a weapon out of such technology and unfortunately kill billions in a few seconds. Hopefully those who created this system considered that vulnerability. Mobile phone could act as UpLink to a mainframe (the US Army maybe uses the Cry-Engine with PhysX for the "Simulation")

## Robot Teaching Mode

**t22**

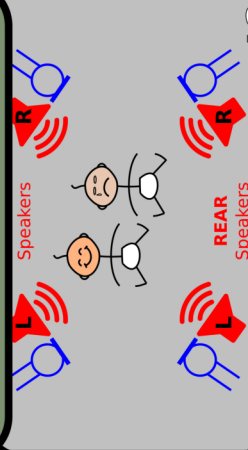

<https://0x8.ch/HackersCardgame12>

**Inventor: xxxxx**

If your Hand suddenly begins with small movements on the screen. (écriture automatique, return channel mouse) they have already hacked your spinal cord implant (medulla spinalis) and they are testing if they can take over my telemetry. In my particular case they beat my hands against my own head (there are movies where autists do such things and there are special helmets for that). After they successfully attacked you they revictimize the scene (t10 card). And even if they haven't killed me, it would influence me. Maybe this is how they killed Tobias Moser, m46. And for the equal aged friends of the victim this would have the effect of psychological warfare (ma4), if they used dt1 the real offender say it is all your fault, if not it's because you ate eg a cookie or drunk wine or other stupid reasons and b1,t1...

## Quadrophonic

**t9**

<https://0x8.ch/HackersCardgame12>

**Inventor: JVC**

Maybe directly built into the apartments walls, if you would play a **gun-shot sample** (see card m21) could drive the victim paranoid. Quadrophonic or even Octophonic in building with multiple floors would cause the mind to interpret the sounds as authentic and **make neighbours fight each other**

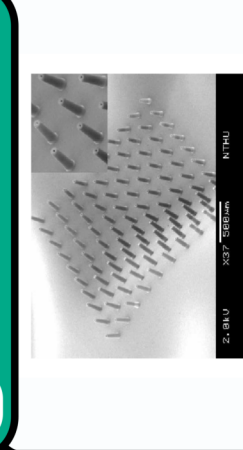

**Building ControlUnit with 1990 Technology:**

2x Gravis Ultrasound Stereo  
2x Sound Blaster Stereo  
4x LPT && JDAC / CENT\_DAC (see t9 card)

For Therapy (a2 Card). But unfortunately also to make people aggressive to force them to fight against each other :)

## Needle Array

**t28**

<https://0x8.ch/HackersCardgame12>

**Inventor: xxxxx**

Elon Musk says "we dont have enough bandwidth to the brain" but if you look at research like "micro needle array" then you would see, that one could create massive parallel interface to the brain. We guess the design of Elon Musk's interface is completely bad and that he even knows that. That what Elon Musk shows in his shows about the Neuralink would just be some sort of Neuronex Product that he possibly did not even develop himself. It would be very likely that Elon has already such an implant and is now producing a low-tec interface that would act as honey pot. We will send this card to Elon with the hashtag #Neuralink but we don't think that he will answer, maybe even filtered or he is beeing blackmailed by eg. the CIA....
