

YOU KILLED!!! PSY-BACKDOOR

If you would have something like Neuralink or US4877027 and Windows tells you, **click here** and an innocent person will die, or mouse gestures "if you draw a V with your mouse" [dx/dt | dy/dt] then a chinese person you not know will die. You maybe would not do this. But if someone adds, "this should technically not be possible" and is illegal, you would need to test that to check that nobody else goes into this trap. Maybe you really killed someone. Since you don't know this person (german: kein Motiv) and Windows was sold as kids-toy not as Weapon you are maybe just the scapegoat. Maybe people killed Muslims on Windows so the "Collateral Murder" Video would revictimize 16Mio People for drawing this damn V on Windows (m50 card). Unknown Genius: and those who have not really killed the victim but feel guilty too would help the real murderer to obfuscate, spam, hide all evidence that could lead to the murderer or its network.

If you are younger than 40 feel FREE TO SAY AS MANY WRONG THINGS as you Like. It's not up to you, to teach or to fix people that are older than you how they could have done things better, but do it better yourself and give this card also to the younger generations and don't make the younger generations clean up your mess like the 1950s generation did to us: https://de.wikipedia.org/wiki/Sonderm%C3%BCndeponie_K%C3%8611iken

Use Cases

If an older Person gives you a bad feeling, if you said something wrong, it's not worth it to invest your time into his "lessons". often the **teacher** (Sophist opposite of a philosopher) just compensates his own self-esteem at the expense of his students...

The funny thing, in the end the big spoked blob kills Neo, making all people forget about the PsyOP that was shown even as a good person. I don't believe that Sigmund Freud = PsyOP is a good person.... but this is not proven >yet<

Possibly this unice guy is on cocaine and thinks he installs psychological malware to the kids at that party. In fact he is just the scapegoat but does it intentionally. Remote Controlled by t1 card, if you find this video you will find out what i mean, listen to what he says.

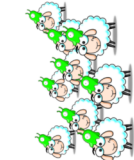

All the things i wrote to that noted here seems to be deleted: <http://marclandolt.ch/doc/mastersOfHardcore.html>

important thing would be that possibly all the young people from this party was owned mit hardware-, software- and psychological backdoors.

if true we need a rescue mission.

update: some of the hostages are institutional honeypots, for example if i found out about the fact that mental institutions are used by the cia (MindControl=Psychology=Psychiatry...) then we of course would try to free loeror's mother, but possibly the cia created this situation just in case that someone like me that was already in mental institutions would find out about this dirty "game".

So "possibly" there is already a big team that waits on people that try to free Jacobs mother, so best way would be to help and support that people (eg. g2/ma8 people) that were already in the same mental institution help them and ask them for help and information(s). It would be likely that not just in the case of loeror the mental institutions go after the whole family and also use m50 card in the family

consider cards: a14, a15, m124

DANGER: if this hypothesis is correct be aware of a16 cards
